CSG specializes in the design, construction and maintenance of contemporary urban rooftop gardens and landscapes.

Job Title: Construction Foreman

Job Description:

The Construction Foreman oversees and participates in the installation of CSG's construction projects. The CF leads and supervises the construction crews and jobsites, ensuring crew safety, efficient workflow, work quality, and site cleanliness. The CF reports to, and takes direction from the Construction Project Manager, and works closely with other members of the CSG management team.

Qualifications:

- Proven experience in a supervisory or management role
- Minimum 3 years of experience in a landscape or construction laborer role
- Strong leadership, organizational, and communication skills
- Ability to work in all weather conditions and lift heavy objects
- Valid driver's license

Compensation: Salary based on experience

Benefits:

CSG offers a full package of employee benefits including health care, dental, vision and short-term disability insurance; 401(k) plan; phone plan, and more

Key Responsibilities:

- Oversees daily operation of construction projects, including installation of hardscaping, planter boxes, motorized pergola systems, outdoor kitchens, irrigation systems, low voltage lighting, and more
- Lead and train crew members, ensuring proper use of tools, equipment, and safety protocols
- Collaborate with Project Manager and others to understand project specifications, order of operations, timelines, and budgets
- Develop and implement standard operating procedures for mobilization, site setup, crew readiness, and tool/material staging
- Develop and implement standard operating procedures for routine tasks to optimize quality and efficiency
- Inspect work sites for quality assurance and compliance with design specifications and plans
- Communicate effectively with CSG management, subcontractors, and clients, providing updates and addressing questions
- Manage tool and materials inventory, ensuring that crews are properly equipped and prepared to execute each day's tasks
- Maintain a clean and organized work environment, adhering to company standards
- Manage the maintenance of company assets including tools, vehicles, and materials
- Ensures that all installation work is performed in accordance with current industry and company standards
